

Who we are

Cibomatto.bristol is a sustainable cuisine project that aims at recreating an authentic Italian flavour, exploring the surroundings of Bristol, searching for local producers and suppliers.

We strongly believe in sustainability and the connection between different cultures, combining high-quality, locally sourced ingredients with the expertise inherited from our families.

Come along to visit us at St Anne's House on the ground floor of a community and creative hub. Take-away or sit in the beautiful space, chat with others, read or do some work.
